ENERGY STAR®, a U.S. Environmental Protection Agency program, helps us all save money and protect our environment through energy efficient products and practices. For more information, visit www.energystar.gov.

Dear ENERGY STAR® Displays Manufacturer or Other Interested Party:

The U.S. Environmental Protection Agency (EPA) would like to thank all stakeholders who submitted comments on the proposed Draft 1 Displays Version 6.0 specification. EPA is currently in the process of assessing stakeholder feedback and plans to release Draft 2, which will contain proposed On Mode power consumption levels, in early September. At this time, EPA welcomes any additional test data from manufacturers, specifically for displays larger than 30 inches, the additional power consumption in Sleep Mode due to network/data connections, and the power consumption at the proposed lux levels for displays with Automatic Brightness Control (ABC), which can help inform the upcoming proposed levels.

EPA will host an all-day in-person stakeholder meeting in Washington, D.C., on Tuesday, September 20, 2011, to discuss the Draft 2 specification, and invites all interested stakeholders to join. Please RSVP by email to displays@energystar.gov with the subject "RSVP - Displays September 20 Meeting."

If you have any questions, please contact Verena Radulovic, EPA, at radulovic.verena@epa.gov or (202) 343-9845, or Bizhan Zhumagali, ICF International, at bzhumagali@icfi.com or (202) 572-9448.

Thank you for your continued support of the ENERGY STAR program.

This message was sent to you on behalf of ENERGY STAR. Each ENERGY STAR partner organization must have at least one primary contact receiving e-mail to maintain partnership. If you are no longer working on ENERGY STAR, and wish to be removed as a contact, please update your contact status in your [MESA](#) account. If you are not a partner organization and wish to opt out of receiving e-mails, you may call the ENERGY STAR Hotline at 1-888-782-7937 and request to have your mass mail settings changed. Unsubscribing means that you will no longer receive program-wide or product-specific e-mails from ENERGY STAR.
